

CH_Manual-Dosage Manual dosing system

Examples of installations and manual dosing machines, carried out by our specialised partners

**The best solution
for advanced industrial
applications**

Areas of use

- CHEMICAL INDUSTRY
- PHARMACEUTICAL INDUSTRY
- CERAMIC INDUSTRY
- AGRI-FOOD INDUSTRY

Our solutions

- Dini Argeo provides manual component dosing solutions to a wide range of industries, from specialised body shops, to bakeries, to box factories.

Dini Argeo manual component dosing solutions offer an easy-to-program formula archive, customized guided procedures to minimize waste and errors, and receipt printing for dosing traceability.

This is essential for companies with Quality Management System certification.

Additionally, manual component dosing operators can store the entire work cycle on a USB.

Our network of specialised partners

- The solutions shown in the examples have been carried out by our network of specialised partners worldwide.

We thank the companies that own the photographic material for having granted permission for its use, as well as for their competence and professionalism.

If you are interested in receiving more information, do not hesitate to contact us: we will be able to advise you relating to the solution you are looking for, together with our nearest local partner.
